### TECHNICAL SKILLS

**Programming Languages:** Python, JavaScript (TypeScript)

**Backend:** Django, Django REST Framework, Django Channels

**Frontend:** ReactJS, NextJS, HTML, CSS (SCSS), Bootstrap, TailwindCSS

**Tools & Methods:** Git, GitHub, TDD, Jest, Mobile-First/Responsive Design

**Professionalism:** Pair-Programming, Communication, Collaboration, Presentation

### EXPERIENCE

---

#### Full-stack Web Developer

##### *Zubbah Technologies*

*June 2019 - Present*

- Played a key role in enhancing the existing backend systems and building REST APIs for cross-platform integration, contributing to the overall improvement of the company's software infrastructure.
- Collaborated with a team to successfully modernise the web user interface, resulting in a more user-friendly interface with a great user experience.
- Contributed to the significant growth of the user base through efficient development and user-focused design.

---

#### Technical Support Engineer, Remote

##### *Microverse Inc.*

*February 2021 - December 2022*

- Reviewed and provided feedback on over 120 pull requests, contributing to improved code quality and project success of students.
- Found and reported issues in project-review guidelines, leading to their enhancement.
- Provided guidance and assistance to students through video calls, asynchronous recordings, and Slack communication.
- Readily assisted fellow TSEs with job-related issues and questions.

---

## **Freelance Full-Stack Web Developer**

*Present*

- Collaborated with multiple clients to build custom solutions, turning their ideas and partial concepts into functional computer software.
- Demonstrated strong problem-solving skills by understanding client requirements, offering valuable insights, and delivering tailored software solutions.
- Successfully developed and delivered projects across various domains, showcasing adaptability and a wide range of technical expertise.

## **EDUCATION**

---

### **Microverse (Software Development School) - Certificate**

*September 2020 - April 2022*

- Mastered algorithms and data structures, developing projects in JavaScript, Ruby, HTML, and CSS (SCSS).
- Gained expertise in pair programming using Git and collaborating with international team members.

---

### **Wisconsin International University College, Ghana - B.Sc. Information Technology**

*February 2014 - December 2019\**

- Studied intermediate programming in C++, Data Structures & Algorithms, and DBMS, and developed a solid foundation in computer science.
- Actively participated in group projects and presentations, ensuring timely project completion.
